### Future Dialog Topics

Attitudes, Values & Beliefs: Why Here, Why Now?

An All Lands Approach to Fire Protection and Ecological Restoration

Economic Sustainability and Community Vitality

Monitoring & Adaptive Management

Changing Climates

# Nov 4

## Ecological Restoration in Region 5 Planning for the Future November 4, 2010 | 9:30-4:00

Please join the **first in a series of Dialogs** over the coming years to discuss a range of critical issues that affect the Sierra Nevada and the Cascades and people who live, work and recreate there. The Dialogs will focus on the future of the Sierra Nevada and Cascades, specifically the national forests, providing an opportunity for learning, shared meaning, aligned actions, and understanding different perspectives.

The first Dialog Session will focus on the topic of **Ecological Restoration** and the work that Region 5 hopes to accomplish over the next 15-20 years, as described in its **Leadership Intent** document. To be effective in its efforts, the Forest Service would like to discuss the Leadership Intent. In an interactive workshop setting, participants will be asked to identify and discuss strategies for implementation and identify key components of success when planning for ecological restoration. **The outcomes of this and future Dialogs will inform future Forest Service decisions.**

### REGISTER ONLINE TODAY!

Space is limited and based on availability so please reserve your spot today!

#### Who should attend?

- County Governments
- Environmental Organizations
- Fire Safe Councils
- Industry
- Land Managers
- Private Landowners
- Recreation Users
